

Fifth International Joint Conference on Electronic Voting
6–9 October 2020 · Bregenz, Austria

E-Vote-ID 2020

General Chairs: **Krimmer, Robert** (Tallinn University of Technology, Ragnar Nurkse School, Estonia), **Volkamer, Melanie** (Karlsruhe Institut für Technologie, Germany)

Outreach Chairs: **Rønne, Peter** (University of Luxembourg, Luxembourg), **Krivososova, Iuliia** (Tallinn University of Technology, Estonia)

Submission Deadline
15 May 2020

This is the fifth edition of one of the leading international events for e-voting experts from all over the world, taking place in Bregenz, Austria, in October 2020.

One of its major objectives is to provide a forum for interdisciplinary and open discussion of all issues relating to electronic voting. The first 4 editions attracted over 400 participants which exchanged views on 121 presentations.

The conference aims to bring together e-voting specialist working in academia, politics, government and industry in order to discuss various aspects of all forms of electronic voting (including, but not limited to, polling stations, kiosks ballot scanners and remote voting by electronic means), in four tracks and a PhD colloquium:

Track on Security, Usability and Technical Issues

Chairs: **Beckert, Bernhard** (Karlsruhe Institut für Technologie, Germany), **Küsters, Ralf** (University of Stuttgart, Germany) and **Oksana Kulyk** (IT University of Copenhagen, Denmark)

Design, analysis, formal modeling or research implementation of:

- ❖ Electronic voting protocols and systems;
- ❖ Voter identification and authentication;
- ❖ Ballot secrecy, receipt-freeness and coercion resistance;
- ❖ Election verification, including end-to-end verifiability and risk limiting audits;
- ❖ Requirements;
- ❖ Evaluation and certification, including international security standards, e.g. Common Criteria or ITSEC;
- ❖ Human aspects of security mechanisms in electronic voting and in particular of verifiability mechanisms;
- ❖ Any other security and HCI issues relevant to electronic voting.

Track on Administrative, Legal, Political and Social Issues

Chairs: **Duenas-Cid, David** (Tallinn University of Technology, Estonia / Kozminski University, Poland), **Solvak, Mihkel** (University of Tartu, Estonia)

- ❖ Discuss legal, political and social issues of electronic voting implementations, ideally employing case study methodology;
- ❖ Analyze the interrelationship with, and the effects of electronic voting on democratic institutions and processes;
- ❖ Assess the cultural impact of electronic voting on institutions, behaviours and attitudes of the Digital Era;
- ❖ Discuss the administrative, legal, political and social risks of electronic voting;
- ❖ How to draft electronic voting legislations;
- ❖ Public administrations and the implementation of electronic voting;
- ❖ Understandability, transparency, and trust issues in electronic voting;
- ❖ Data protection issues;
- ❖ Public interests vs. PPP (public-private partnerships).

Track on Election and Practical Experiences

Chairs: **Oliver Spycher** (Swiss Federal Chancellery, Switzerland) and **Beata Martin-Rozumilowicz** (International Foundation for Electoral Systems, United States)

- ❖ Review developments in the area of applied electronic voting;
- ❖ Report on experiences with electronic voting or the preparation thereof (including reports on development and implementation, case law, court decisions, legislative, steps, public and political debates, election outcomes, etc.);

Contributions in this track will be published in TUT press proceedings only. These experience and practical reports need not contain original research, but must be an accurate, complete and, where applicable, evidence-based account of the technology or system used. Submissions will be judged on quality of review and level of analysis, and the applicability of the results to other democracies.

Track on Posters and E-Voting System Demo

Chairs: Rønne, Peter (University of Luxembourg, Luxembourg)

We invite demonstrations of electronic voting systems to be presented in an open session on Tuesday, 6 October, before the welcome reception. Participation is open to all conference participants, but we request a Short Paper (two pages) by 15 September submitted via EasyChair, describing the system's requirements and properties, such as:

- ❖ whether the system is intended for use in controlled (i.e. in polling stations) or uncontrolled environments (i.e. remotely via the Internet or in kiosks);
- ❖ which types of elections it accommodates;
- ❖ whether it addresses the needs of voters with disabilities;
- ❖ what sort of verifiability it provides;
- ❖ the extent to which it guarantees vote privacy;
- ❖ whether it has been deployed in a real election;
- ❖ where to go for more information.

PhD Colloquium

Chairs: Driza Maurer, Ardita (Zentrum für Demokratie Aarau/Zürich University, Switzerland) and **Juliia Krivonosova** (Tallinn University of Technology, Estonia)

The goal of the colloquium is to foster understanding and collaboration between PhD students from various disciplines working on e-voting. To this end, the program allows plenty of space for discussion and initiating collaboration based on presentations by attendees.

Each interested participant should submit his/her research proposal (or alternatively ideas for papers, open problems, or other issues where feedback from colleagues would be helpful etc.) in the shape of a short paper (two pages in length), using the conference platform.

Format of the Conference

The format of the conference is a three-day meeting. The PhD Colloquium and the Posters and Demo Session take place on the day the formal conference begins. No parallel sessions will be held, and sufficient space will be given for informal communication.

Paper Submission

Paper submissions can be in two formats - either as a full paper or an abstract.

- ❖ Full paper submissions (max 16 pages in LNCS format all-in);
- ❖ Short Paper submissions (max 2 pages in LNCS format all-in).

All submissions will be subject to double-blind reviews.

Submissions must be anonymous (with no reference to the authors). Submissions are to be made using the EasyChair conference system at easychair.org/conferences/?conf=evoteid2020, which serves as the online system for the review process. During submission, please select the appropriate track or the PhD colloquium.

The track chairs reserve the right to re-assign papers to other tracks in case of a better fit, based on reviewer feedback and in coordination with other track chairs. LNCS style must be used (see the Springer guidelines at springer.com/gp/computer-science/lncs/conference-proceedings-guidelines, including templates for LaTeX and Microsoft Word).

If you think that one or more of the programme committee members could have a conflict of interest with your submission, please let the general chairs know at conference-chairs@e-vote-id.org. In turn, according settings in the EasyChair system will be set, so that the respective member/s is/are not involved in the review process.
